## THE SHOW: OYUN

Who or what is the sculpture? Is it the juggler or the artifact created? What is the meaning of stability? What is the limit? These questions lead to the searching of the ultimate state: the perfect balance, the architecture of juggling, the harmony between everyday elements.

In Oyun, the juggler builds up a perfectly balanced structure, he creates his own space in the stage outlining the air and especially defying gravity while pursuing harmony among all the elements involved. Oyun ('game' in Turkish) is a universe of cooking pots. Everything revolves around pots, spoons, ropes, balls... This show is the result of years of research and experimentation whose inspiration has come mainly from the different artistic disciplines: sculpture, visual poetry, architecture, photography, drawing, music, painting, theatre, circus, etc. Oyun is a unique and innovative show for all kind of audience, combining humor, rhythm, originality and a refined technique of juggling. The show has toured several countries: Turkey, Spain, Portugal, Luxembourg, Belgium, Netherlands, Germany...
